TROUBLESHOOTING

House is Not Heating Effectively

- 1 Check thermostat is set to required temperature - increase if required.
- 2 Check outlets are open to all areas that require heating.
- 3 Check that return air grille is not obstructed.
- 4 Check that return air filter (where fitted) is clean - cleaning every 2 weeks is recommended.
- 5 Check that external doors and windows are closed.

REPLACING THE BATTERIES

- 1 When the battery symbol  appears new batteries are required.
- 2 Un-clip the bottom of the front of the thermostat and pull forwards.
- 3 Fit 2 x AA batteries and clip front of thermostat back in place (note direction of battery '+' and '-').

Heater Does Not Start

- 1 Check thermostat is set above room temperature.
- 2 Reset the heater - turn thermostat OFF-ON-OFF-ON with a 5 second wait at each step.
- 3 Check that gas is turned on at gas meter. If gas is turned off contact your installer or gas supplier.
